

REMARKS/ARGUMENTS

The application stands in allowed condition, with claims 1 through 18 allowed, except for the formal matters set forth in the Examiner's Action dated March 28, 2005. Prosecution on the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.

In response herein applicants request entry of several formal changes to the application claims as suggested by the Examiner. The formal changes to the application claims are corrections found to be needed after filing of the application. In each instance the intended meaning is believed observable from the substance of the original application and the issue of new matter is thus avoided. The substance of each requested change is believed to further clarify applicants' intent.

Consideration of the amendments as to form and continued allowance of the application are respectfully solicited.

Respectfully submitted,
